

The annual NJSWEP *Growing Great Women in the Garden State* Award recognizes and honors outstanding women who have made a significant contribution to the environmental field. Nominees for this award should be women who set a standard for quality and excellence in the environmental field. In addition, their professional commitment, leadership, and achievement should distinguish nominees. We encourage nominations of distinguished women professionals from all areas of practice, including government, private industry, academia, and non-profit sectors.

Nominations must be received by February 21, 2020
